

Inviting Applications for the Post of Project Assistant

Role Description

CHG, invites applications from motivated and enthusiastic candidates for the position of Project Assistant in Metastasis Research Laboratory at the Centre for Human Genetics. Candidates will gain experience in experimental work with a focus on cancer biology. They will be responsible for maintaining cell cultures, conducting assays and laboratory duties. Candidates with academic interests will be preferred and encouraged to present seminars, posters and attend academic meetings related to the subject.

Essential qualifications

Candidates must have M.Sc. in Life Sciences, Microbiology, Biotechnology, Biochemistry or any other relevant subjects with first class and good academic records.

Essential qualifications

The work includes culturing of cancer cells under laboratory conditions and more complex *in vivo* animal models, therefore prior experience with cell culture and animal work would be recommended.

Duration

Two years or till termination of the project (whichever is earlier).

Other Aspects

Number of posts available: 2

➤ Fresh graduates are encouraged to apply.

Minimum period of commitment: 2 years

Training stipend: as per institute norms.

Hostel accommodation on campus may be available to out-station candidates

Those interested can send their application to radhikanair@chg.res.in with an updated CV, a brief Statement of purpose and 2 references.
